After client team notes:

- Have your rate compared against others public servants in other states or to your peers?
- Suggestions for where to put money
    - Webinars or links to educational videos (think khan academy but about retirement)
- Update mobile view
- How to calculate a pension when you have a lot of diff jobs etc.
- Better analytical tools so on the backend we know where people are spending their time
- Better UI
    - Have it be one question at a time
    - More detailed
- Not have two different calculators
    - More modularized
- Graph the information so people can visualize it
- Remove the fields that are N/A
    - Pop ups or links that explain what things mean
- Graph for continual work
